

The **B2B MARKETPLACE**
Empowering Nation's Growth

FROM DIRECTOR'S DESK

At Zhuzoor Infratech,

We are more than just an aggregator—we are here to connect the dots in construction. From procurement to supply chain to on-ground execution, we help make things work better, faster and without any friction. But more than that, we’re about people, building trust, growing with integrity and always looking ahead.

Our commitment lies in embracing innovation, and driving sustainable growth. As industries evolve, we stand at the forefront, cementing that businesses don’t just keep up but move ahead with confidence and trust. The future isn’t just something we prepare for—it’s something we create.

UTM FIREWALL & SECURITY

06

Unified Threat Management (UTM), a Next-Generation Firewall (NGFW) today, provide multiple security features and services in a single device or service on the network. Rely on globally acclaimed experts to find your network's users protected with several different features, like antivirus, content filtering, email and web filtering, anti-spam, and more.

We help to block hackers from your devices, keep your online activity private and protect your identity, all-in-one. With advanced protection, we help you safeguard your privacy, connect securely, speed up devices, and stay safe from cybercrime by partnering with globally leading brands.

OPERATING SYSTEM

08

PCs, laptops, tablets, smartphones, and servers require an OS. Discover the best global brands we have partnered with to spearhead your business operations or personal requirements.

Cloud Service providers are vendors which provide Information Technology (IT) as a service over the Internet. Our cloud service partners can reduce business process costs when compared to on-premise IT.

IP PHONE & IP PBX

10

Voice-over internet protocol (VoIP) software uses an IP network to transmit phone calls seamlessly without the need to connect to an extra telephone network. It is a modern form of PBX or private box exchange. We have partnered with a global communication technology giant to make this possible for businesses.

CCTV SURVEILLANCE SYSTEM

11

Surveillance systems are an essential part of securing your home or business. These systems can range from wireless home security cameras to sophisticated alarm systems that notify law enforcement at the first sign of trouble. The global brands we have partnered with offer you this fortified security network.
